Digitization & Imaging

Professionals with rich experience in 2D, 3D and enhanced visualizations.
Use of virtual and augmented reality for remote experiences.

For GLAM, Collections, CHI etc.
rising demand 3D Models, Photogrammetry and ML Application

Combining preservation, digitization and sustainability - integrating FAIR and CARE principles - focusing towards engaging, participation social relevance

The Digital Museum of Learning

THE HISTORY AND FUTURE OF LEARNING

In September 2022, the Johann Jacobs Museum reinvented itself. Learning and education are now at the heart of the new museum. The Digital Museum of Learning, as part of the Foundation's Global Education Museums Initiative, embarked on an exciting journey to discover the history and future of learning.

We are building online infrastructure that brings together art and science to share historic and current global perspectives.
