

PHOTOCONSORTIUM

International Consortium for Photographic Heritage

We are a non for profit international association devoted to the promotion and enhancement of the culture of photography and photographic heritage.

In the ongoing process of digital transformation of the cultural heritage sector, PHOTOCONSORTIUM is committed to promote digital cultural heritage, access and reuse of cultural content, citizens' engagement and education.

Follow us: www.photoconsortium.net

PHOTOCONSORTIUM participates, and promotes the participation of its members, in projects and initiatives, such as:

- participation in the Programmes of the European Commission,
- production of photographic exhibitions,
- co-creation and participative events,
- seminars and conferences,
- training courses.

PHOTOCONSORTIUM is also the expert hub on photography for [Europeana.eu](https://europeana.eu) and operates as accredited aggregator for digitized collections, supporting public and private cultural institutions in making their collections available on Europeana.

DIGITIZATION AND DIGITAL CULTURAL HERITAGE

- The digitization of cultural heritage collections is a process initiated since the beginning of 2000.
- The scope is to transform our heritage into the digital world, unlocking modern possibilities of access, preservation, sharing, and re-use.
- Now, there is a big push in EU to increase the effort towards 3D digitization of tangible heritage.

RECOMMENDATIONS

"Digitise in 3D all monuments and sites (at risk) and 50% of all monuments and sites that are most visited"

"Member States should ...support and raise awareness of Europeana among the general public and particularly in the education sector and schools"

"All public funding for future digitisation ...should be made conditional upon making digitised content available in Europeana and the data space"

DATA SPACE FOR CULTURAL HERITAGE

New flagship initiative of the European Commission to accelerate the digital transformation of Europe's cultural sector, and foster the creation and reuse of content in the cultural and creative sectors.

The project builds on and expands the existing functionalities and services of the Europeana Digital Service Infrastructure.

Strands of work

- **Development and operation of the data space infrastructure:** quality of service, innovation, interoperability and compliance with other data spaces – also in cooperation with supporting projects.
- **Integration of high-quality data:** significant and sustained increase in high-quality, usable and accessible data in the data space, especially 3D digitized collections and datasets.
- **Capacity building and fostering reuse:** strengthen the capacity and capabilities of professionals and reuse communities working with digital cultural heritage.
- **Digital services for the public:** engage audiences with digital cultural heritage inspiring use, reuse, and participation.

IT IS **NOT** ONLY 3D...

IT IS THE

#MEMORYTWIN

We capture the **HISTORY** behind the object, not only its geometric structure.

We preserve
MEMORY,
VALUE and
IDENTITY!

Development of pilot e-infrastructure for CHIs to store, preserve, manage, share data, metadata and paradata generated in 3D digitization projects

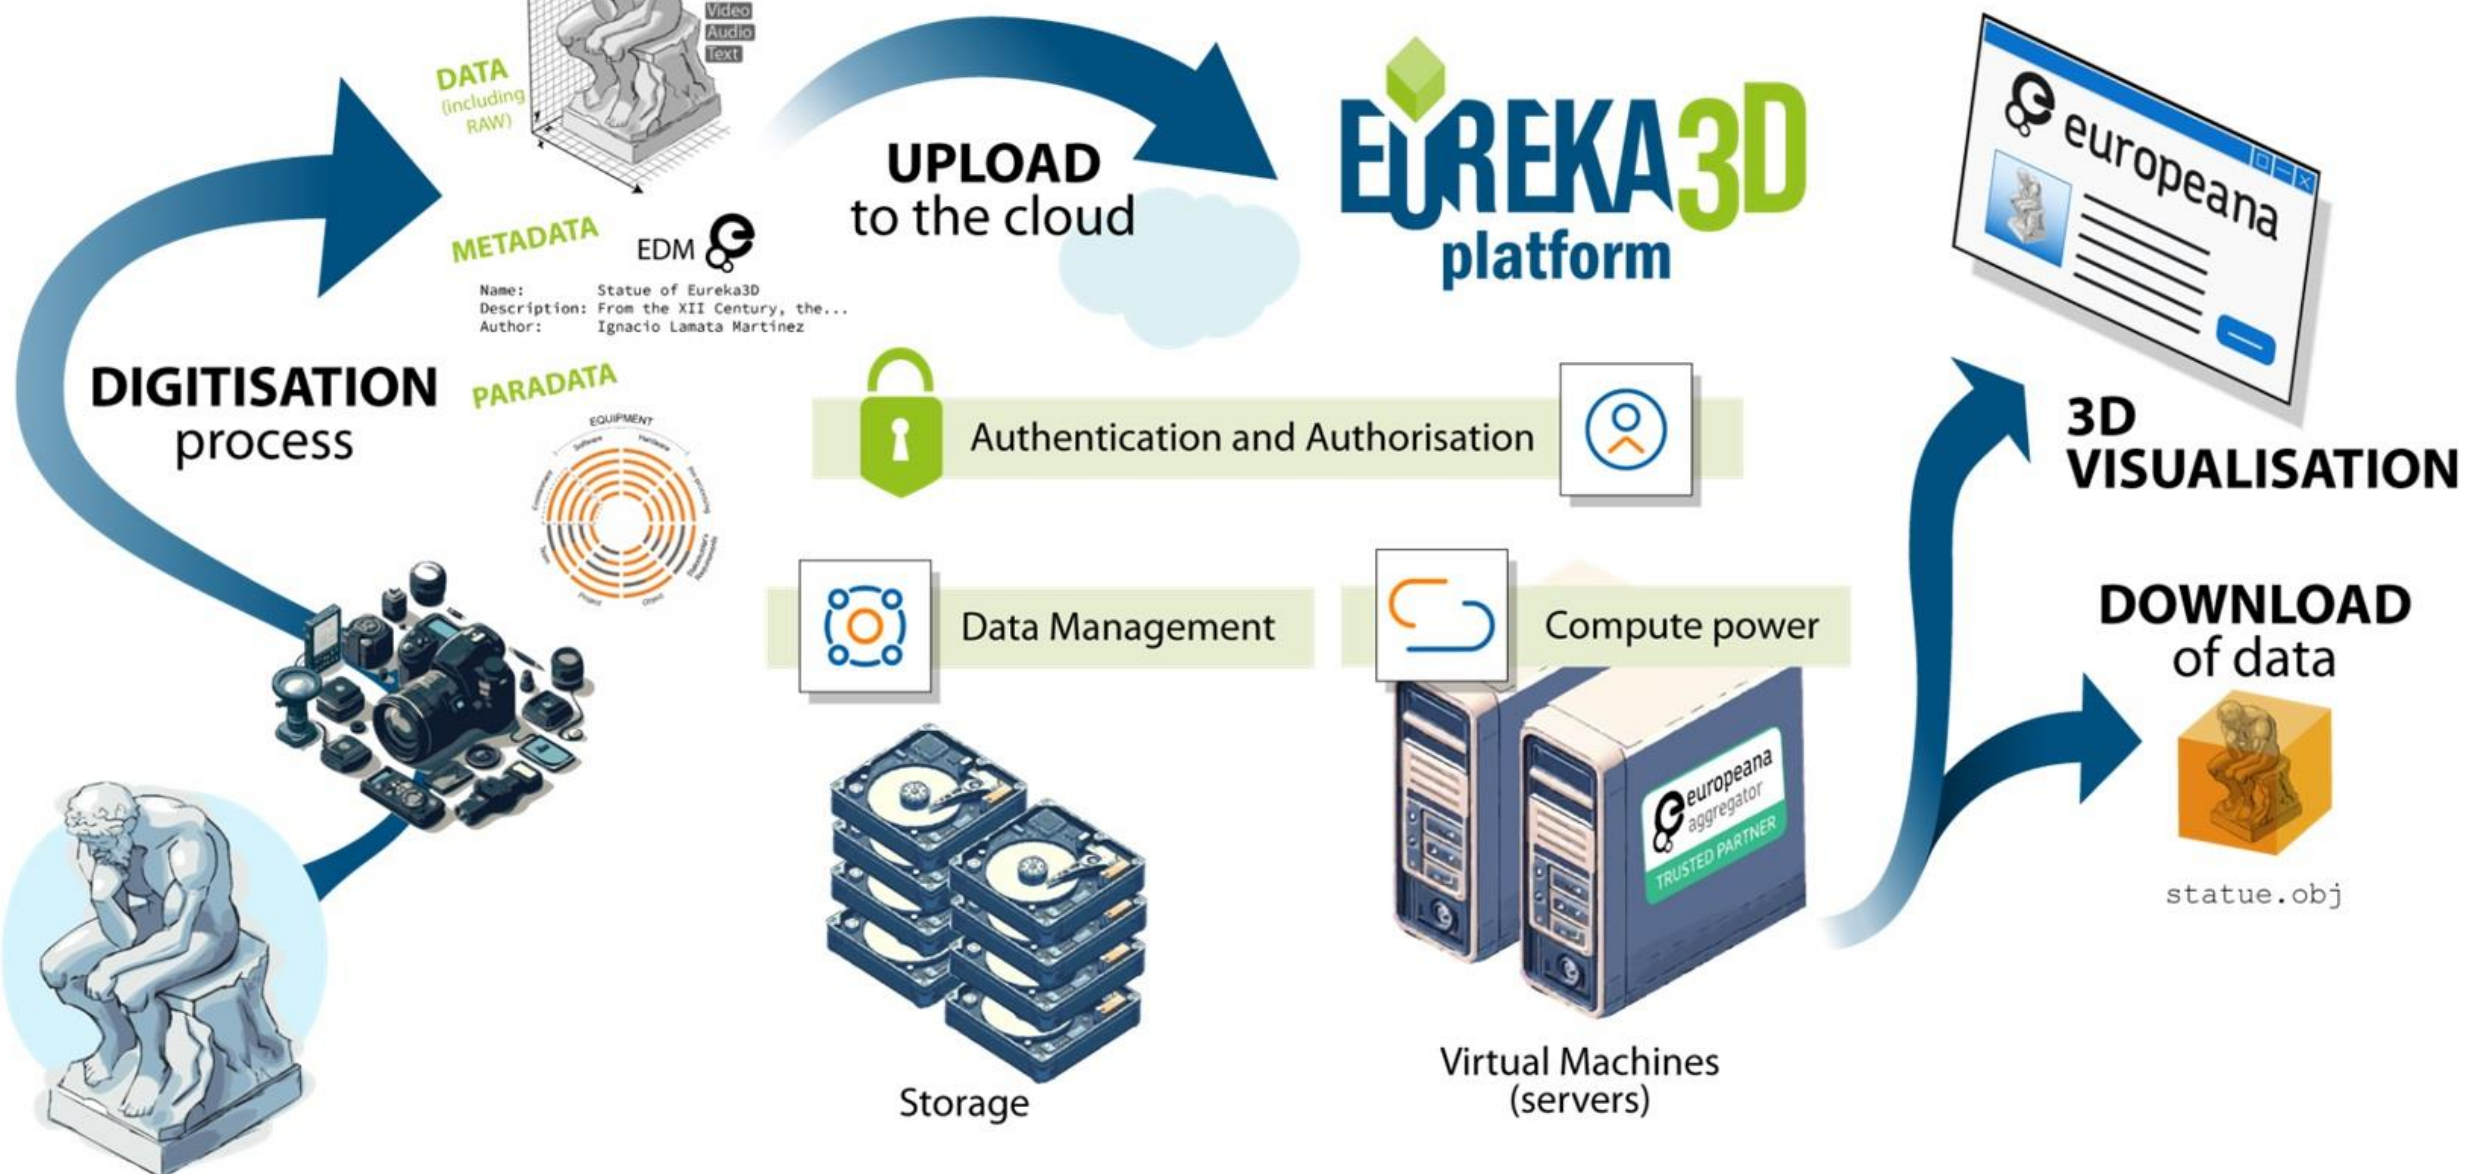

Capacity building on high quality 3D digitization

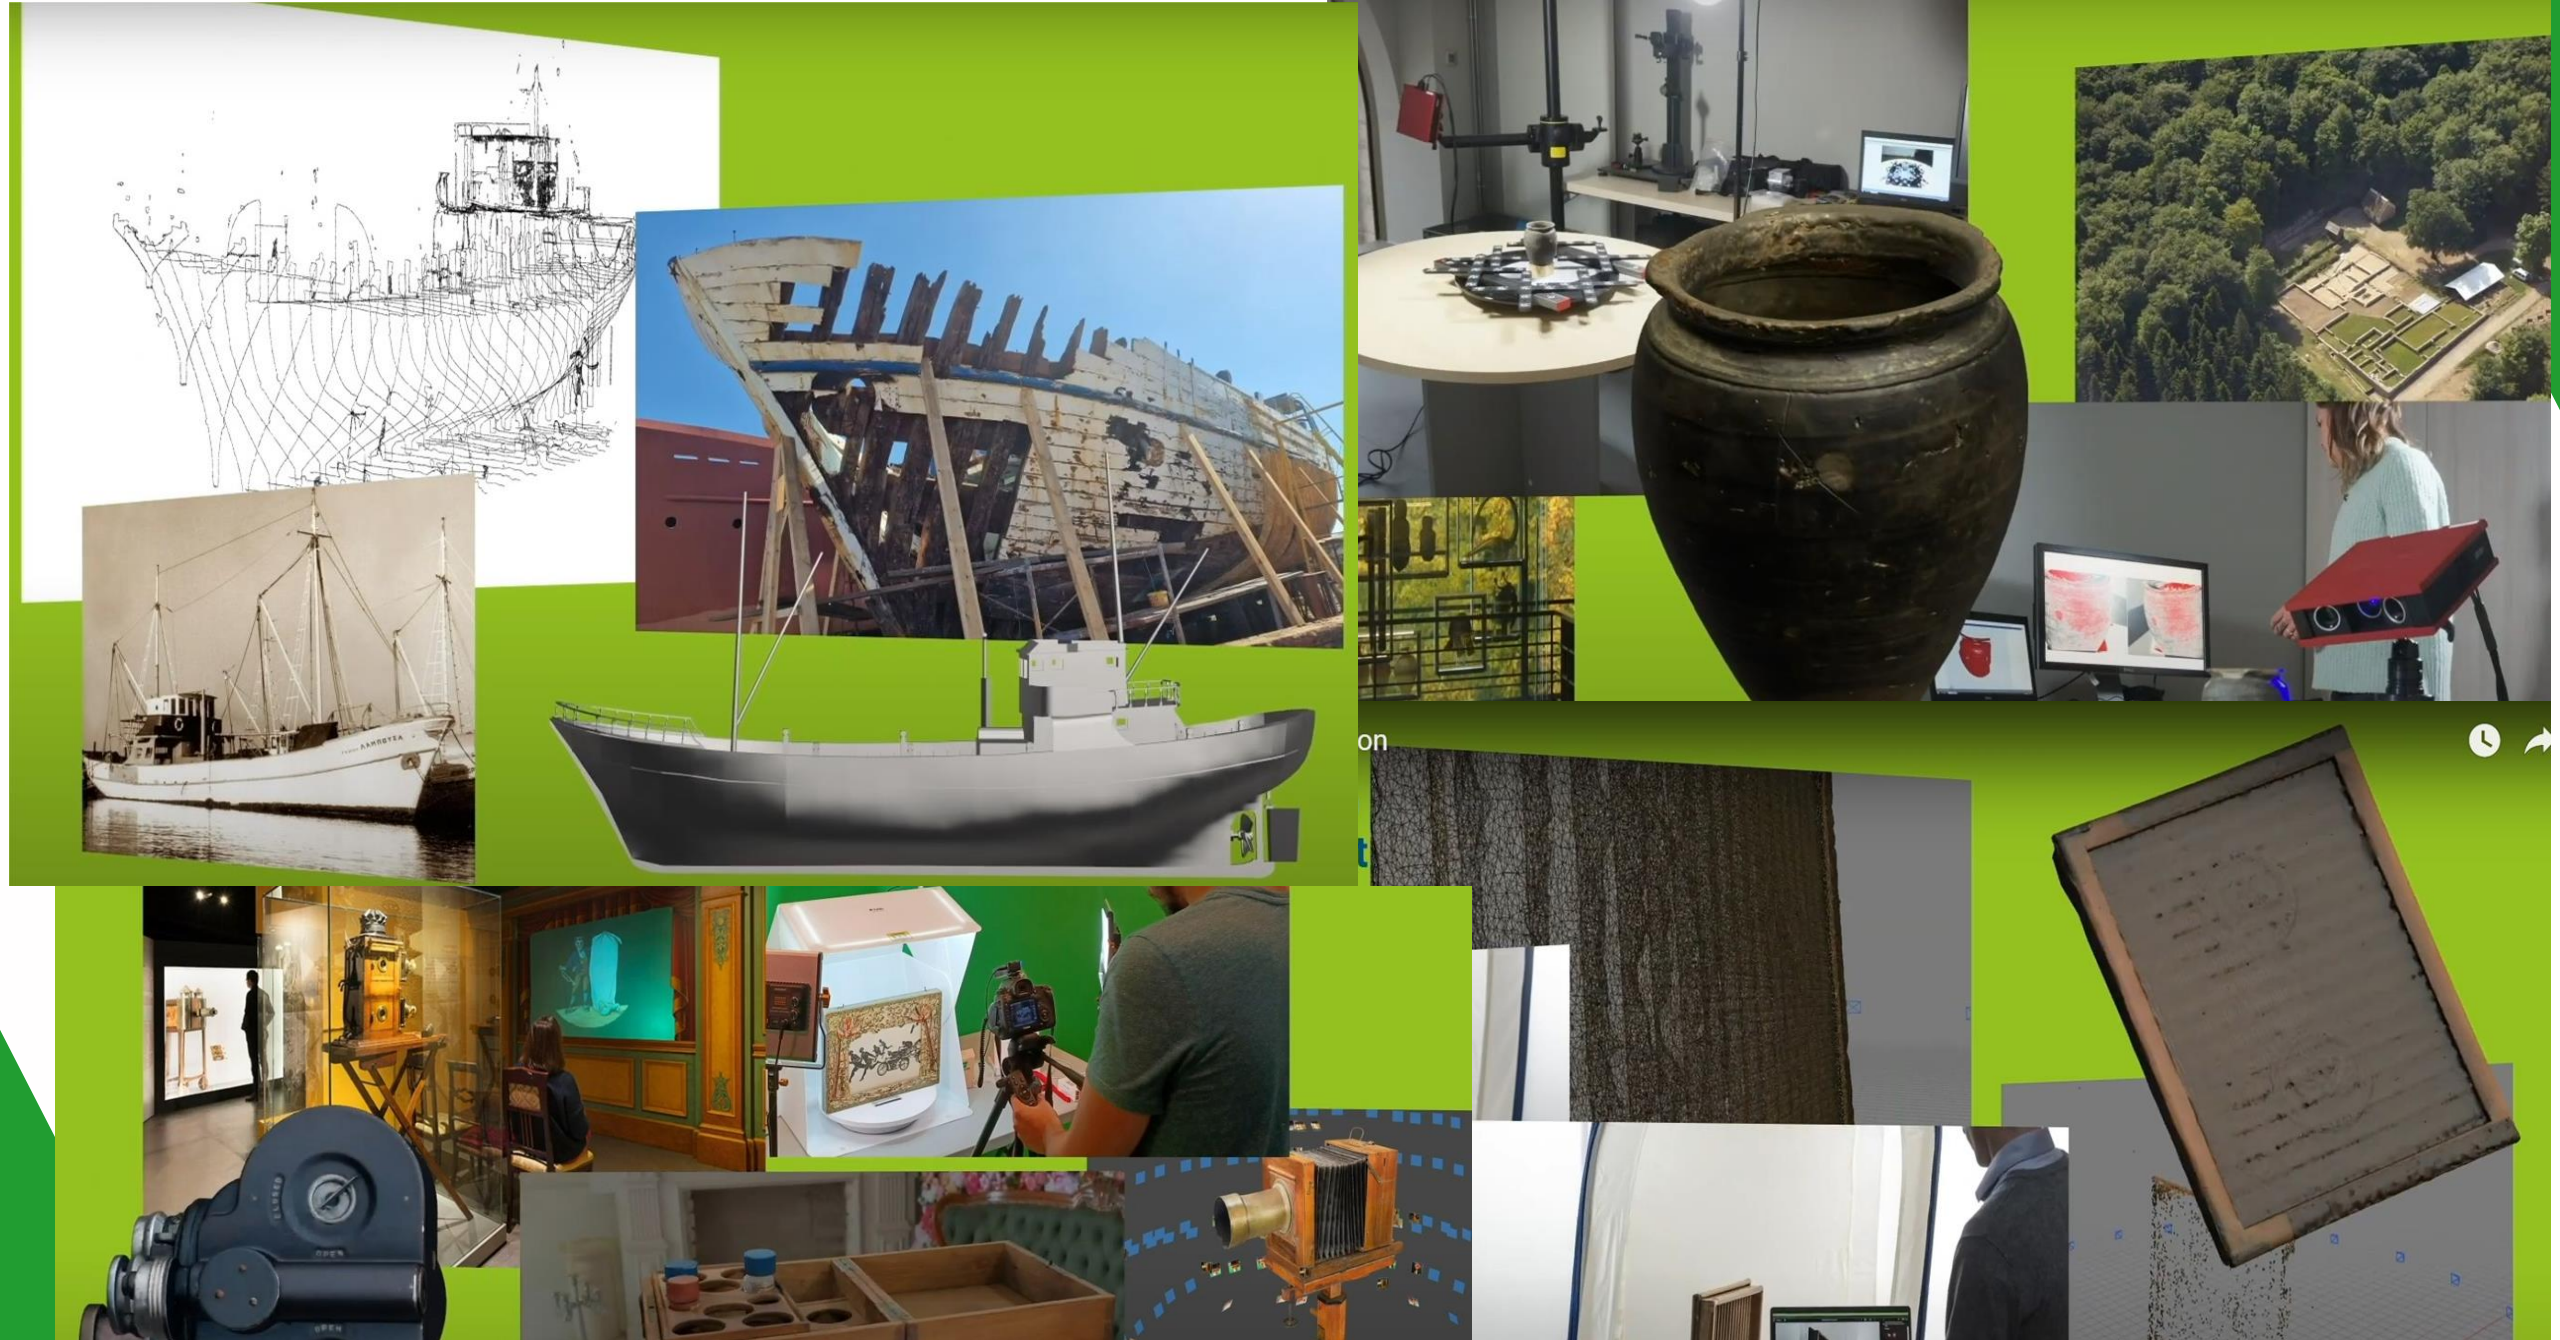

Aggregation of content in the Data Space for Cultural Heritage

Upcoming events

17/5/2024 h. 14-18 CET:

Webinar: Paradata, Metadata and Data for 3D acquisition in cultural heritage

Registrations open: <https://eureka3d.eu/webinar-paradata/>

29/5/2024, in the afternoon:

Hybrid demo event, in Cyprus and online - To be announced shortly

Fall 2024, dates to be announced:

3 webinars on formats, authenticity and security, and reuse in 3D cultural heritage - In collaboration with ICA International Council on Archives

Euromed conference in Cyprus - November 2024

EUreka3D Final conference: 12-13 December 2024 in Girona
