

IMmersive digitisation: uPcycling cULtural heritage towards new reviving StratEgies

**Funded by
the European Union**

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

About IMPULSE

IMPULSE, we're pioneering IMmersive digitisation to uPcycle cULTural heritage, driving new reviving StratEgies. Our EU-funded project shapes sustainable futures from our past's rich tapestry.

Launched on Feb 2nd, we breathe life into timeless stories, engaging with cultural heritage like never before.

Our vision

Enter the Metaverse with us, witness upcycled digitised cultural heritage content, inviting collective, engaging interactions. Redefine how we engage, fostering collaborations, bringing unsung narratives to life.

“

IMPULSE is more than a project; it's a revolution in how we perceive and interact with our cultural heritage. Through immersive digitization, we're not just preserving the past; we're reshaping its narrative for a vibrant future.

”

Žaneta Kubic
Project coordinator
Jagiellonian University

Activities

1. **Co-create Values:** We prioritize stakeholder needs, synthesizing requirements into policy actions for long-term societal impact. Let's simplify metadata sharing strategies, fueling creativity and opening doors for creative reuse in education, arts, and Creative and Cultural Industries (CCSIs).
2. **Connect & Bridge Expertise:** Join us in promoting next-generation experiences, fostering collaborations across sectors. Collaborate with artists and researchers to create meaningful interactions, bringing hidden perspectives to the forefront.
3. **Experiment & Learn Together:** Embrace experimentation in dynamically changing landscapes. Join our Community of Practice and explore narratives reaching diverse audiences across Europe and beyond.
4. **Amplify Digital Empowerment:** Overcome fragmentation and showcase the discoverability of immersive digitization. Together, let's foster inclusive access and use of digital content and environments for collective advancement.

IMmersive digitisation: uPcycling cULTural
heritage towards new reviving StratEgies

At the heart of IMPULSE is a vision of a **European immersive digitization** driven by culture and creativity, upcycled technology, vivid storytelling and simplified but safe standardizations.

In the fast-evolving landscape of European digital cultural heritage, it is important to improve **accessibility, interoperability, and innovative (re)use** of digital collections. The IMPULSE project (funded by **Horizon Europe**) aims to revolutionize digitization methods and foster a more immersive, accessible, and interconnected experience for diverse audiences in the realms of

1. Education and research
2. Artistic professions
3. Cultural and creative sectors.

Its collaborative approach includes a Community of Practice, a Hackathon, and an Acceleration & Mentoring Hub, connecting stakeholders for capacity building in immersive digitization.

WP1 - Extended Storytelling Towards Vivid User Experiences (EX-STORY)

Investigate user behaviors and needs in virtual
environments for digital cultural heritage

OBJECTIVES

- Identify user demands
- Introduce audiences to digital heritage archives
- Create socially engaged XR experiences
- Showcase hidden stories and underrepresented communities

Digital Heritage Online

Collection of all heritage materials from KU Leuven Libraries that have been digitised, comprising items from the 9th up to the 20th century.

WP2 - Immersive Technologies for Digital Cultural Heritage Upcycle (TECH)

Reuse of digitized content and adoption of novel XR
technologies

OBJECTIVES

- Address interoperability challenges
- Provide centralized aggregation solution
- Design and develop multi-user virtual environments
- Implement pilot studies for virtual environments
- Populate virtual worlds with partners' digitized assets

WP3 - Standards Simplification (STAND)

OBJECTIVES

- Examine current digitization standards and identify gaps
- Develop strategies for standardized data delivery
- Create a digitization competence audit toolkit for cultural heritage data sharing
- Facilitate data sharing on emerging platforms and new European dataspaces

WP4 - Legal Safety (LEGAL)

Improve digitization standards and develop legal frameworks for emerging platforms

OBJECTIVES

- Develop strategies for standardized data formats
- Create legal models for using digital cultural heritage in metaverse environments

WP5 - Dissemination, Communication and Mentoring (DISS)

Foster connections among cultural heritage
digitization actors and promote project sustainability

OBJECTIVES

- Engage diverse stakeholders through innovative communication tools
- Support interplay among networks and platforms
- Promote the project in relevant EU programs

What's next?

Explore the Open European Metaverse

By experimenting with the digitisation of cultural objects and collections in virtual environments, we aim at enabling collective, embodied, and immersive interactions through extended reality (XR).

Resonate with different perspectives

We encourage collaboration between artists and researchers to create more meaningful interactions, bringing hidden and unsung perspectives into engaging game-like experiences

D1.2_IMPULSE_results_User Research Report, UX Evaluation of IMPULSE VR prototype

This deliverable, D1.2 – Report on qualitative and quantitative UX research, presents the results of a multi-method user study conducted within Work Package 1 (WP1) – Extended Storytelling Towards Vivid User Experiences – of the IMPULSE project (GAP-101132704). The research was carried out in Task 1.1.3, coordinated by the Jagiellonian University, and aimed at identifying how diverse user groups perceive, interpret, and interact with immersive cultural heritage content.

D1.1_IMPULSE_results_Review of UX Methodology and Tool Proposition

The Deliverable 1.1 presents an overview of UX methodologies resulting from a scoping review of the available scientific and research literature, as well as from various analysis and exploration activities, a research methodology and a proposal of tools to explore the experiences, behaviours, needs and affective-cognitive factors of different user groups, as envisaged by the IMPULSE project.

D5.3_IMPULSE_results_WP5_Setting up the digital co-working space

The Deliverable D5.3 provides the information about the process and the implementation of the collaborative space that will be adopted by IMPULSE

Workshop Application: Reimagining Learning. Transforming Education Through VR and Cultural Heritage

What kind of stories lie hidden in the Vesalius manuscript, educational glass slides of ancient temples, or the ruins of great civilizations? What if ancient murals were designed to speak to multiple cultures, blending artistic traditions into a shared narrative? What if Palmyra had never fallen and we could explore how it evolved into the present day? What if Vesalius' anatomical work was reimagined from the perspective of a female anatomist?

The **IMPULSE project** invites you to participate in a **two-day workshop** that explores how Virtual Reality (VR) can unlock new ways to connect with cultural heritage and transform educational processes. You will get the opportunity to reimagine and reshape teaching and learning through the use of immersive storytelling practices and innovative technology.

Whether you are an educator, creator, cultural heritage enthusiast, or simply curious about the potential of VR, this event is open to you. No technical expertise is required! Only curiosity and willingness to collaborate and explore new ideas.

Workshop Highlights

- **Design Interactive VR Experiences:** Utilize authentic cultural objects from the **KU Leuven Collections** to craft compelling VR learning scenarios.
- **Shape an Innovative VR Platform:** Test and contribute to the development of cutting-edge immersive technology.
- **Collaborate with Peers:** Engage with professionals and thought leaders to co-create innovative approaches to learning.
